

Why do you people in government continue to try to take away my right to have things that I want as long as I am willing to pay for it. Why don't you put a rule in the the main stream media is not so LIBERAL and continue to not report the facts? Stop the main stream media from just stating their bias?

I want XM Radio because I can select from many, many, many stations that fit my tastes and I am sick and tired of organizations like yours that apparantly don't have a damn thing to do except fringe on peoples rights.

Get a job and quit bothering people who want the right to have CHOICE in their life.

I could go on but I think you get my point - KEEP THE HELL OUT OF MY FREEDOM OF CHOICE. I do have a brain and can make my decisions I don't need any more government in my life!!!
